## **The Stillness Meditation Therapy Centre**

presents

## **MAPPING THE INNER CHILDSCAPE**

Exciting and innovative workshops of special interest to parents, teachers, counsellors and adults seeking change.

## Conducted by Francine Cockerill, artist, psychotherapist and SMT facilitator, these workshops offer a truly special experience!

Participants will explore the 'inner child' through art expression, narrative and Stillness Meditation (SMT<sup>™</sup>). Drawing upon ancient aspirations with a calm mind, the process of art and story is a powerful tool to conceptualise thoughts and release energy – a wonderful way to discover the self and nourish personal growth.
